Sony Music	Davis Miles	CHAMPIONS - Rare Miles from the Complete Jack Johnson Sessions	Miles Davis had a deep love and respect for boxing, seeing deep parallels between "the sweet science" and his own relationship with music. One of Miles' favorites of his own recordings was the 1971 soundtrack to the Bill Cayton documentary about Jack Johnson and he was inspired by the political and racial subtext of the legendary boxer's saga. Culled from the celebrated expanded project <i>The Complete Jack Johnson Sessions</i> released in 2003, and name-checking a number of pugilistic legends ("Ali," "Sugar Ray," "Duran," "Johnny Bratton"), these funk-infused recordings rock harder than anything that Miles put to tape. Featuring a sterling line-up of musicians (Wayne Shorter, John McLaughlin, Dave Holland, Keith Jarrett, Herbie Hancock, Jack DeJohnette, Billy Cobham) and a legendary cover photo of Miles in the ring captured by Jim Marshall, the release finds this music issued on vinyl (in brilliant yellow) for general release for the first time ever.	2LP gelbes Vinyl	1	Columbia	Jazz	17.07.2021

Warner	Tom Petty & The Heartbreakers	Angel Dream	<p>To celebrate the 25th anniversary of the release of She's The One, we are releasing a remixed, remastered and re-imagined version of this album. The original album included several songs that were left off the original Wildflowers album (recently included as the All The Rest disc in the Wildflowers & All The Rest re-issue), so this re-release is an appropriate ending to the campaign celebrating the Wildflowers-era.</p> <p>Ryan Ulyate (Tom's long time engineer and producer) has remixed the audio, and the song selection is designed to work as a TPHB album, rather than a soundtrack album. Four unreleased tracks have been added; the rocker "105 Degrees" (written by Petty), a cover of JJ Cale's "13 Days", "One of Life's Little Mysteries" (another Petty original), and an instrumental ("French Disconnection") in the same vein as the instrumentals on the original album. An extended version of "Supernatural Radio" is also included.</p> <p>The new title is a reference to one of the stand out tracks on the album, for which there will be a video. The new album will have brand new artwork, and this version will replace the existing physical versions of She's The One, although the original release will remain on the DSPs (in addition to "Angel Dream" being available digitally).</p>	1 x 140g 12"	1	Warner Records Label	Pop	12.06.2021
